- **Withdrawal of Attorney Mandate**
- **Draft Response to Examination Report dated 12/24/2009**

Freiburg, 04/19/2010

Dear Mrs. Louie,

today I filed the withdrawel of the mandate from Jackson Patent Law Office in this application at the USPTO by FAX. So I will prosecute the application myself from now.

I have prepared an amendment, which now in much more detail claims the invention, believing, that the specific problem and the inventive solution of printing on individual walls of buildings now is better addressed in the claims and that the inventive step now can be more clearly distinguished from the prior art as cited in the examination reports.

I attached a draft-response and would like to ask you, if you possibly could have a look over it in advance and I would like to ask for your assistance, if there are still major issues regarding patantability.

I also have referred to the provisional double patenting issue with some argument according to the related claims.

With best Regards,

Burkhard Böstgens
